Contemporary Concepts in Implantology:

A perio & prosthodontic modern vision

By Bruno Negri DDS, MSc, PhD

***The ultimate master class in
aesthetic implant dentistry***

See · Learn · Incorporate · Practice

Co-sponsored by:

 **ZimVie**
Institute

12-14 June 2025

Elevate your expertise · Transform your practice

In the dynamic world of dentistry, the pursuit of excellence and the adoption of innovative techniques are crucial for success. We are thrilled to present a comprehensive course meticulously designed to enhance your skills and knowledge in implant therapy in the aesthetic zone.

**3
DAYS**

✓ Topics

- Comprehensive approach for implant therapy in the aesthetic zone.
- Diagnosis: digital tools and contemporary workflows.
- Immediate implant placement and staged approach.
- Guided implant surgery: planning and execution.
- Soft tissue management: harvesting techniques and minimally invasive procedures in the aesthetic zone. Horizontal and vertical soft tissue augmentation techniques.
- Emergence profile development: how to achieve tissue stability.
- Provisional restorations and loading protocols.
- Surgical-prostho procedures: step by step sequence.
- Bone augmentation procedures simultaneous with implant placement.
- Selection of restorative material and prosthetic components: implant design, provisional abutments, interim restorations, definitive abutments, final restorations.
- The ultimate Ti-base abutment concept.
- Long term results.

✓ At the end of the masterclass, you will learn:

- How to define a clear and precise treatment sequence.
- How to implement new digital treatment protocols and procedures in an effective and optimized way.
- How to achieve primary stability with guided implant surgery.
- How to execute minimally invasive surgeries with low morbidity and achieve tissue stability in the long term.
- How to clarify the selection of the implant abutments and restorative materials.
- How to fulfill patient's expectations and involve him/her from the beginning of the treatment.
- How to introduce the latest digital options and workflows for the benefit of the daily business.

PROGRAM

DAY 1: Theoretical Sessions & Live Surgeries

08:45-09:00 Registration.

09:00-10:30 Welcome and Introduction.

Implants in the esthetic zone: biological concepts. Immediate, early and delayed implant placement.

Full digital diagnosis and planning.

10:30-10:45 Coffee Break.

10:45-12:45 Case presentation and Live Surgery I.

12:45-13:00 Discussion.

13:00-14:00 Lunch Break.

14:00-16:00 Case presentation and Live Surgery II.

16:00-17:30 Discussion and surgical-prostho procedures: step by step sequence.

DAY 2: Theoretical Sessions, Live Surgeries & Hands-on Workshops

08:45-10:15 Digital Design and guide preparation. The influence of the soft tissue. Harvesting techniques and minimally invasive procedures in the aesthetic zone.

10:15-10:30 Coffee Break.

10:30-13:00 Hands-on Workshop on pig jaw: Soft tissue harvesting and recipient bed preparation.

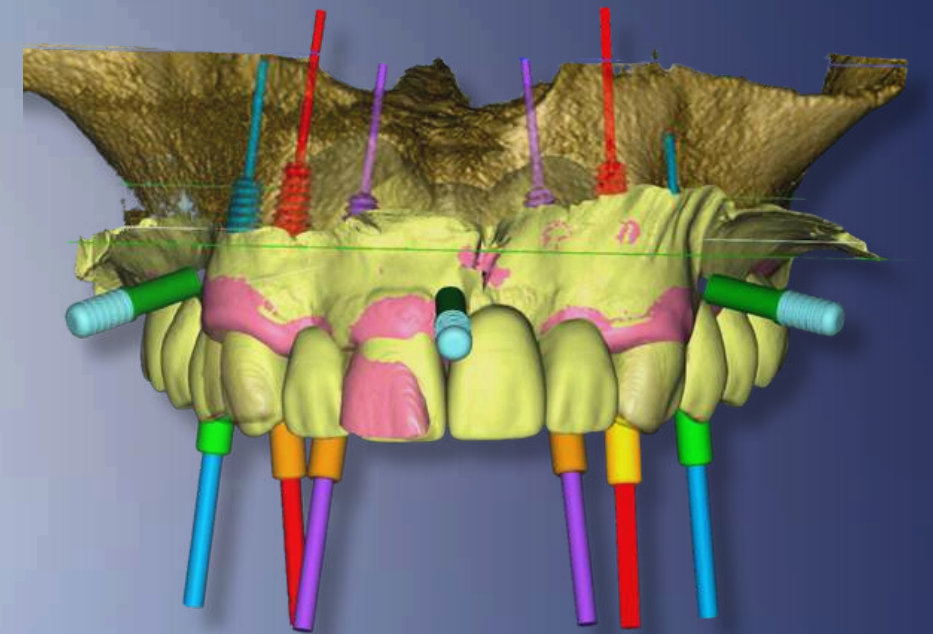

Incisions, flap design and suturing techniques.

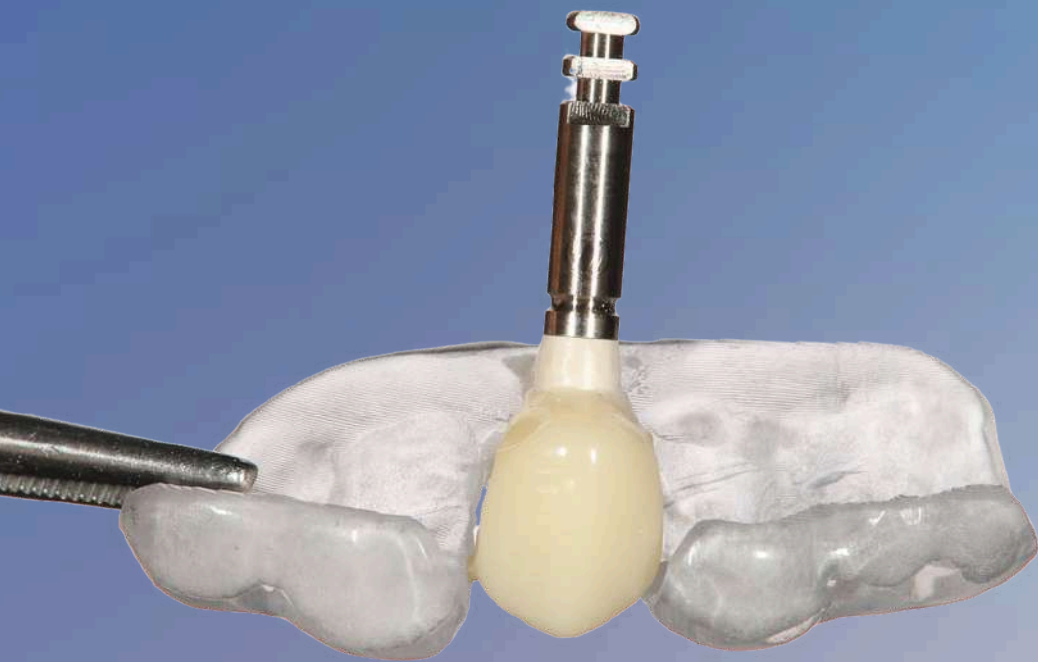

13:00-14:00 Lunch Break.

14:00-15:30 Case presentation and Live Surgery III.

15:30-17:30 Hands-on Workshop on model: immediate implant placement and provisional restoration preparation. Emergence profile development.

19:30 Welcome Dinner.

DAY 3: Theoretical Sessions & Hands-on Workshops

09:00-10:45 Hands-on Workshop on model: Soft tissue grafting and suturing techniques.

10:45-11:00 Coffee Break.

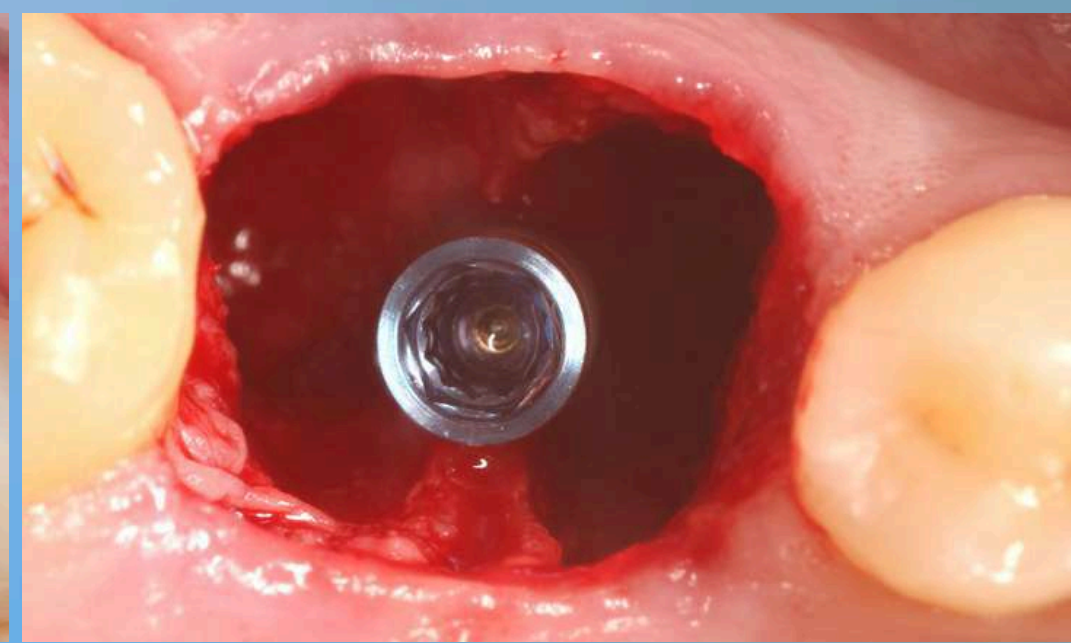

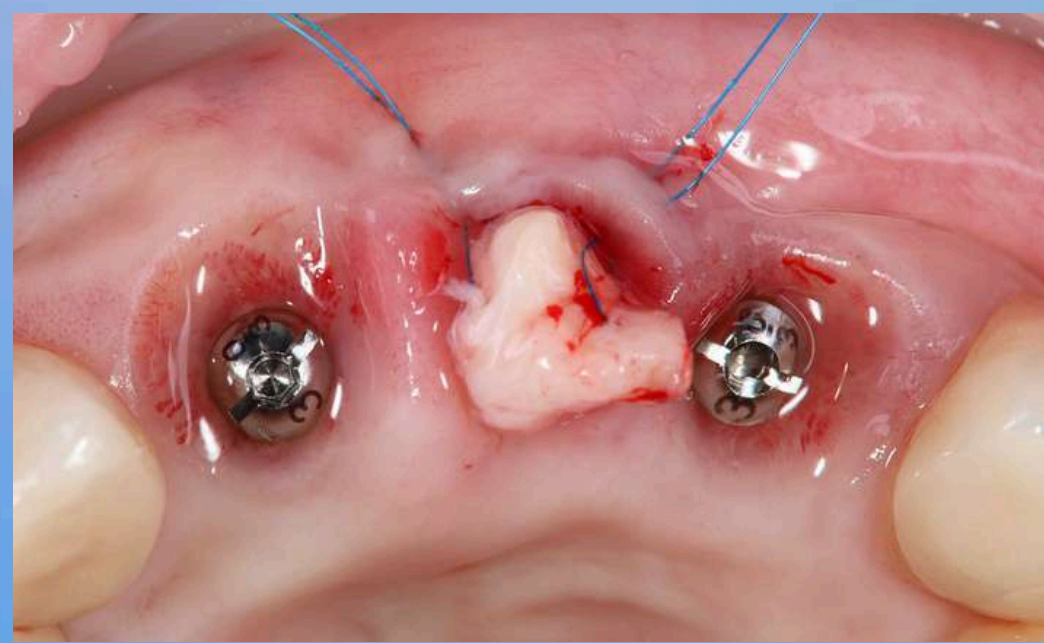

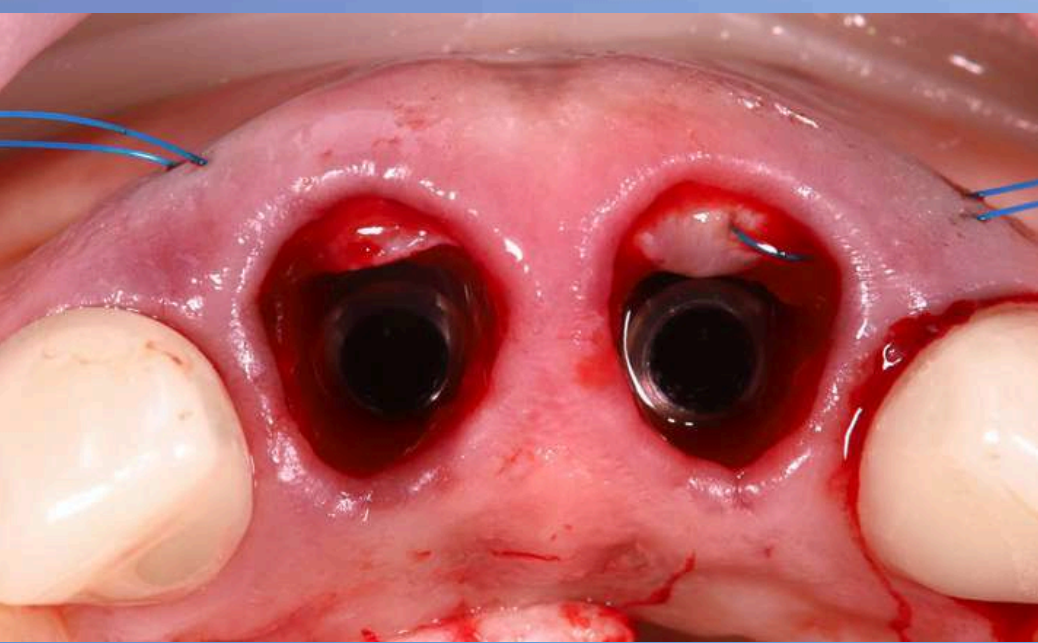

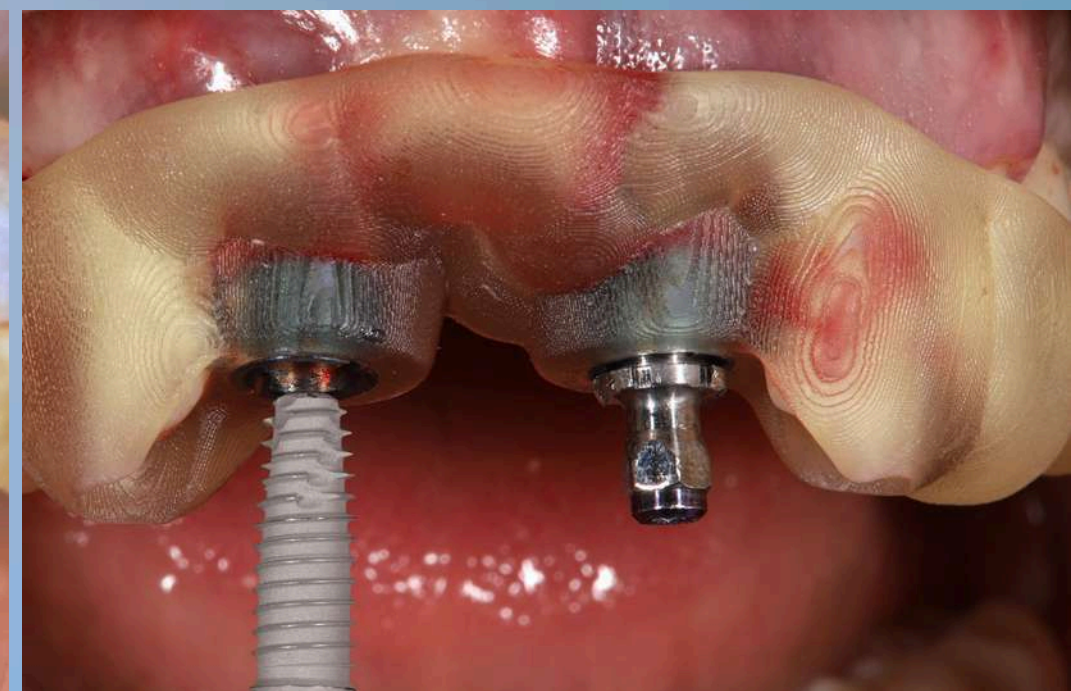

11:00-13:00 Hands-on Workshop on model: Early implant placement.

13:00-14:00 Selection of restorative material and prosthetic components.

Implants, provisional abutments, interim restorations, definitive abutments, final restorations.

Open discussion.

14:30 Networking and delivery of certificates.

EXPAND YOUR LEARNING EXPERIENCE

This masterclass can be optionally complemented with a Hands-On Training Course at the ZimVie Institute in Winterthur, Switzerland. In this program, you will have the opportunity to enhance your surgical and prosthetic skills, allowing you to stay up to date on state-of-the-art procedures. The course is highly practical, featuring extensive hands-on training and concise theoretical sessions.

DR. BRUNO NEGRI

Curriculum Vitae

I am Bruno Negri, Doctor of Dentistry. I consider myself passionate about my profession since 2002. I traveled to Spain in 2005 to work and continue training, and it was at the University of Granada where I approved my academic degree. Later I started working at the University of Murcia, where I did several Master's degrees (Master's Degree in Integrated Dentistry, Implantology and Biomaterials, Master's Degree in Aging and Master's Degree in Advanced Implantology), in addition to my Doctoral Thesis, in which I received an Outstanding Cum Laude rating, with European Mention. After several awards received by the Royal Academy of Medicine and Surgery of Murcia in 2011 and 2012, I studied the Certificate in Advanced Periodontology at the Complutense University of Madrid in 2013. During this time I completed my academic training in the United States, Germany and Switzerland. I am also the author of more than 30 scientific articles in journals with impact index (JCR) in Implantology, Biomaterials, Bone Regeneration and Periodontics.

Currently I combine my work as clinical director, specialist in periodontics, oral surgery and implantology in my two private practices, Clínica Dental Integral Dr. Bruno Negri and U Clinic Dental & Facial Aesthetics (La Zenia, Orihuela Costa), with that of Professor and Co-Director of the Master's Degree in Mucogingival, Periodontal and Implant Surgery at the University of Murcia. I carry out different teaching activities and participate in different educational programs, in addition to giving talks, courses and national and international conferences, in Spanish and English, in different universities, scientific societies and other private institutions. I have attended and participated in congresses and courses of different specialties, and I love to continue doing so, to continue learning about what I like the most, multidisciplinary oral rehabilitation.

TERMS & CONDITIONS

Cancellation policy

BRUNO NEGRI, S.L. reserves the right to amend topics, agenda, themes or panel discussions in the Contemporary Concepts in Implantology course program as well as given speaker, event location, day or time publicly communicated. BRUNO NEGRI, S.L. reserves the right to cancel the Contemporary Concepts in Implantology course at any time. If the cancellation takes place within 14 days (inclusive) prior to the starting date of the Contemporary Concepts in Implantology course, BRUNO NEGRI, S.L. will refund the registration fee. If the Contemporary Concepts in Implantology course is cancelled more than 14 days prior to the starting date, participants are not eligible for the refund of any fees or expenses, excluding the registration fee. In case of a positive Covid test, the participant retains the right to join the next module on the same topic. Due to this exceptional situation we would like to offer you the option to postpone your participation in the course until next year without additional costs.
